

This Week's Top 5

HEALTHTECH STORIES

Sep 13–19, 2025

1

Liquid Biopsy Breakthrough for Cancer

HEALTHTECH

Exact Sciences debuts a liquid biopsy test capable of detecting 50 cancer types, a leap in early cancer detection.

FDA to Scrutinize AI Mental Health Devices

HEALTHTECH

The FDA convenes an advisory committee to navigate the complex regulation landscape of AI-driven mental health devices.

Harness the full potential of your precision health data.

3

DNAexus and Oracle's Genomic Breakthrough

Manage

Easily ingest, organize, store and integrate your omics datasets. Break down data siloes with one single source of truth for multi-modal data.

Analyze

Process and analyze data with a deep library of bioinformatics tools. Deploy pipelines and AI/ML algorithms with lightning-fast speed. Build cohorts and generate insights in an intuitive interface.

Collaborate

DNAexus offers a trusted, secure environment for research and data sharing. Enable seamless, secure collaboration across internal teams and external stakeholders while maintaining compliance.

HEALTHTECH

DNAexus collaborates with Oracle Health to integrate genomic data into clinical care, paving the way for personalized medicine.

imaging AI that tran

GE HealthCare Acquires icometrix

neurology care

complex scans to clear, actionable

HEALTHTECH

GE HealthCare's acquisition of icometrix aims to advance neurology with AI, marking a significant move in brain health innovation.

5

- strong COPD experience in the last 3 years
- a history of activating quickly
- Hispanic and African-American populations
