Lilly's Vision for AI Beyond Drug Discovery

HEALTHTECH

Lilly's Chief Digital Officer discusses how AI enhances patient engagement, operational efficiency, and personalizes medicine—far beyond just drug discovery.

New Study on Vocal Biomarkers

HEALTHTECH

Canary Speech partners with Intermountain Health to explore vocal biomarkers, potentially revolutionizing monitoring in multiple sclerosis treatment.

AI Enhances Mental Health Services in CA

HEALTHTECH

CalMHSA partners with Eleos Health to deploy AI statewide, improving documentation and care delivery for mental health workers across California.

Oracle EHR to Transform Rural Health

HEALTHTECH

Hillsboro Health is adopting Oracle's EHR with an AI agent to enhance workflows and patient outcomes in rural settings. A significant leap forward!

A photograph of a female nurse with dark hair in a teal scrub top, smiling and using a stethoscope on the chest of an elderly male patient with white hair. The patient is sitting up in a hospital bed with white linens. The background is softly blurred, showing a window with light curtains.

Empathetic AI Nurses Improve Care

HEALTHTECH

Empathetic AI technology is set to revolutionize nursing, improving workflows and patient satisfaction. Learn more about how AI can help nurses deliver better care.
