FDA Approves Novel Parkinson's Treatment

HEALTHTECH

Insightec's FDA-approved ultrasound treatment for Parkinson's offers a glimpse into the future of non-invasive neurology solutions.

A close-up photograph showing a person's bare chest. A hand wearing a blue nitrile glove is applying a small, white, rectangular wearable ultrasound device to the skin. The device has a blue circular sensor area. The person is wearing a white hospital gown with a green patterned border.
