

This Week's Top 5

HEALTHTECH STORIES

May 9–15, 2026

1

New AI Partnership Enhances Medical Imaging

HEALTHTECH

Perplexity and VisualDx's partnership aims to integrate validated medical images into AI, enhancing diagnostic accuracy and clinical decision-making.

A physical therapist, a man in a black long-sleeved shirt, is standing and holding a yellow resistance band. He is looking towards a woman, a physical therapist, who is sitting on a black exercise table. She is wearing a blue short-sleeved top and jeans, and she is also holding the yellow resistance band. They are both smiling. The background shows a gym setting with various exercise machines and equipment.

2

A PT's Journey with AI Technology

HEALTHTECH

A physical therapist shares insights on learning to trust AI in clinical practice, highlighting its potential to enhance patient care.

Potential of Advanced AI in Healthcare

HealthTech IL

HEALTHTECH

Recent studies affirm advanced AI's promise in high-stakes healthcare, significantly enhancing diagnostics and treatment efficiencies.

4
