

This Week's Top 5

HEALTHTECH STORIES

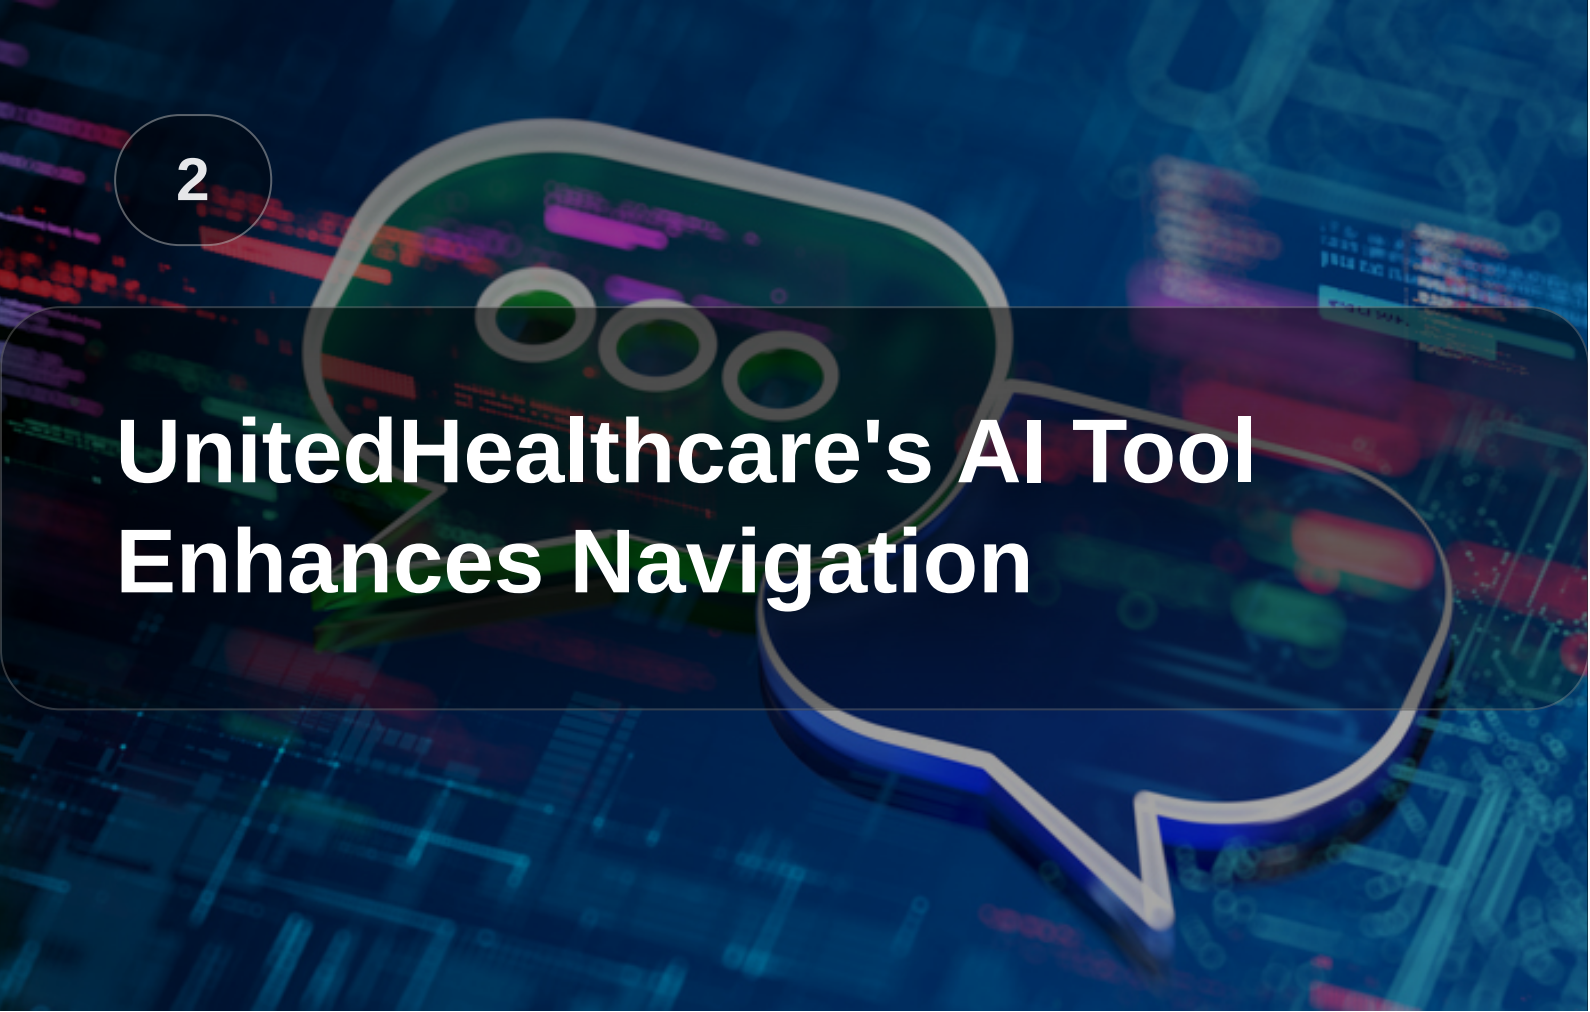

Mar 28 – Apr 3, 2026

1

Fast-Tracking AI for Women's Health

HEALTHTECH

The FDA is expediting AI innovations in healthcare, particularly focusing on women's health. We must ensure gender-sensitive solutions are prioritized.

2

UnitedHealthcare's AI Tool Enhances Navigation

HEALTHTECH

UnitedHealthcare's new AI companion aims to simplify healthcare navigation, helping users access services and make informed health decisions.

Predicting Rehab Participation

HEALTHTECH

Mayo Clinic leverages wearables and machine learning to predict participation in COPD rehabilitation programs, improving patient engagement.

Revolutionizing Gut Health

HEALTHTECH

Jona and Everlywell have partnered to introduce an AI-powered gut microbiome test, empowering consumers with personalized health insights.

5

Maintaining Clinical Trust with AI

HEALTHTECH

Scaling autonomous AI in healthcare requires balancing innovation with clinician trust. Strategies are essential to enhance and not hinder patient care.
