NHS Adopts AI Scribe Technology

HealthTech IL

HEALTHTECH

NHS to deploy Oracle's AI scribe technology to enhance documentation accuracy and simplify administrative tasks for clinicians.

A healthcare professional in blue scrubs is sitting on a chair, assisting an elderly patient who is lying in a bed. The patient is wearing a VR headset and holding a controller. The healthcare professional is looking at the patient's hands, possibly demonstrating or assisting with the VR interaction. The background shows a simple room with a wooden shelf holding books and a small potted plant.

Establishing VR Dosage Standards

HEALTHTECH

There's a need for dosage standards in VR therapy to transition it from trials to mainstream clinical use. Learn how this can impact mental health treatment.

AI Predicting Patient Deterioration

HealthTech IL

HEALTHTECH

Leveraging AI can significantly enhance our ability to predict patient deterioration, providing crucial insights for timely interventions.
